Welcome To J.K. Engineering

Mr. Anil Choudhary
Managing Partner

Mr. Manav Choudhary
Managing Partner

Founded in 1994 in Vadodara, Gujarat, J.K. Engineering has established itself as a trusted name in liaison and commissioning services for manufacturing and EPC firms in the Government Power Sector. With over 30 years of industry experience, we have built a strong reputation for reliability, technical expertise, and consistent results.

With a focus on technical knowledge, timely delivery, and customer satisfaction, we continue to drive growth for our clients by simplifying complex processes and ensuring every project meets its objective – efficiently and effectively.

At J.K. Engineering, our goal is to bridge the gap between manufacturers and government boards by providing professional liaison solutions that deliver measurable outcomes. Our long-standing client relationships with leading names like Aditya Birla Insulators, Havells India Ltd, Amara Raja Infra Pvt. Ltd, Techno Electric & Engineering Co. Ltd., and many more reflect our commitment to quality and trust.

Your Trusted Partner in Power Projects

At J.K. Engineering, our strength lies in over three decades of proven experience, in-depth technical knowledge, and an unwavering commitment to excellence. We believe in building long-term relationships by delivering reliable, transparent, and efficient liaison services that help our clients achieve success in the power sector. Our dedicated team ensures timely coordination, accurate documentation, and smooth communication between manufacturers, EPC firms, and government boards. With a strong track record, trusted partnerships, and customer-focused service, we stand as a dependable partner in driving your business forward.

■ WHAT WE OFFER

Founded in **1994** in Vadodara, Gujarat, **J.K. Engineering** has established itself as a trusted name in liaison and commissioning services for manufacturing and EPC firms in the Government Power Sector. With over **30 years** of industry experience, we have built a strong reputation for reliability, technical expertise, and consistent results.

Our work spans across major state and central power organizations including **GETCO, MGVL, PGVL, DGVCL, UGVCL, GSECL**, and **POWER GRID**. Over the decades, we have assisted numerous companies in achieving vendor registrations, tender participation, approvals, inspections, and payment processes, ensuring smooth and efficient project execution.

- To get Vendor registration for the firms
- To get the name included in the list of approved/preferred companies wherever the "Goods/Works" are specified.
- Identifying prospective customers and constantly informing them about new tenders floating in boards and arranging tender documents as per advice.
- To assist in getting Price Variation amounts and work for framing the technical specifications by parties corresponding to the firm specifications and standards wherever possible.
- Attending the tender opening and forwarding that data.
- Follow-up of tender and furnishing clarifications if any.
- Procurement of maximum quantity of orders from Board/private parties.
- Follow up with customers for approval of various drawings and documents to be furnished against P.O.
- Follow up with customers for approval of various drawings and documents to be furnished against P.O.
- Co-ordination with customers for inspection and also for getting DI.
- Follow-up action for getting the payment at the earliest.
- To get a waiver of penalty in case of delayed deliveries wherever possible.
- To work for closure of Purchase Order and for getting the balance payment, C-forms, and bank guarantees, if any as applicable.
